## ABOUT ME

I am an ambitious, motivated and goal-oriented graduate in Computer Science and Engineering working in the exciting subject of Cybersecurity. I bring a broad range of skills to the table, smoothly fusing my technical expertise with my supervisory skills, and I pay close attention to the little things. I am able to provide clear, succinct reports with a focus on detail while making well-informed suggestions across a range of topics because to my strong programming and problem-solving backgrounds. Additionally, I am a clear and effective communicator and work well individually as well as part of team. My excellent track record in providing high quality results combined with my honest approach and reliable nature would make me an asset to your organization.
